IN SUMMARY

We add to the 4-hour school day by providing
an additional 4 hours of education per day.

- 260 students, age 7-14
- Christian teaching
- All subjects including arts, PE & IT.
- Special projects and family events.
- Clean water and nutritious meals.

We focus on restoring hope for children who
often fail to believe they can achieve anything
in life because of the conditions they live in.

Since our last update ...

- ⇒ We built a clean water station with 16 drinking fountains
- ⇒ We have experienced very high temperatures during the daytime.
- ⇒ We have noticed that more children are suffering from neglect, anxiety and depression.
- ⇒ Parents have continued to tell us how much the project is a lifeline.

Children begging alone at the side of the road

Fresh, clean and cold drinking water

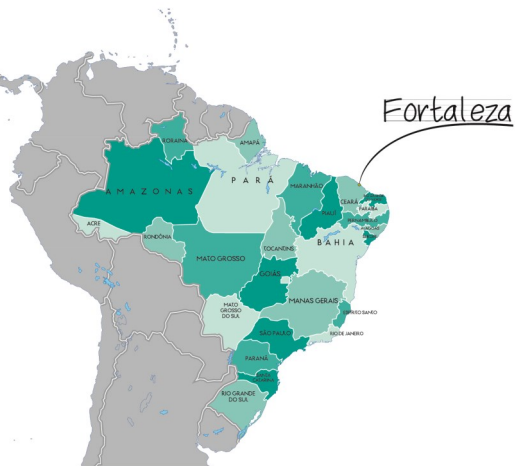

Year 9 students moving on to secondary school.

to children in Brazil

Prayer Needs for UNiViDA

- For a new year 2 teacher.
- For good health during the challenging rainy season.
- For teachers as we try to elevate our literacy goals.
- Employment for parents and commitment to marriage and family relationships.
